**Introduction**

The I-Share catalog allows you to search the holdings of over 75 academic libraries in Illinois and to request books from those libraries. The new I-Share interface requires you to create an account before requesting books. With your account, you can also create lists of favorites, tag items and post reviews.

**Searching Materials in I-Share**

- Search the I-Share catalog directly from the library home page by selecting “All I-Share libraries.”

- When conducting a basic search, modify your search term by keyword, title, author or ISBN.
Sort results by relevance, date, author and title. In the right-hand column, you can further narrow your search results.

To conduct an advanced search, simply click on “Advanced Search” below the simple search box and enter your search terms. The advanced search will include a variety of options such as date of publication, format, etc.

Click on a title to learn more about it.
Once you click through the title, you will be able to see the location and availability. Click “Request this item” to begin the interlibrary loan process.

After clicking “Request this item,” you will be prompted to log-in. If you have created an I-Share account, use your username and password to log-in. If you have not created an account, select “create a username and password” or “Create New Account.”
